About

Skilled User Experience Designer with a passion for creating easy-to-use and intuitive designs, aiming to contribute expertise in a top-notch environment.

- 10 years of extensive experience in designing web, mobile, and standalone applications.
- Blend Design Thinking and Human-Centered Design to craft intuitive engaging, impactful design solutions.
- Lead large, complex initiatives, delivering best experiences that shape product strategy and transform global work practices.
- Share knowledge and expertise across the company to uplift colleagues, teams, and the broader community of practice.
- Collaborate with Researchers and PMs to identify user needs and design journey maps, navigation, sitemaps, IA, wireframes, VD, prototypes, and conduct usability testing.
