ABOUT ME

Skilled User Experience Designer and User Interface Developer with a passion for creating easy-to-use and intuitive design with a great end-user experience, then translating that design to reality with a pixel-perfect code, aspiring to be a part of an ace environment to apply my expertise at finest levels.

- Around 8 years of extensive experience in the field of Web/Mobile/Standalone application Designing.
- Combine Design thinking with Human-Centered design execution, to produce usable and intuitive user interfaces.
- Translate business and user needs and technology constraints into solution concepts that are meaningful, easy to use, and engaging.
- Plan and conduct user research and competitor analysis to identify user needs. Design journey maps, navigation design, sitemaps, information architecture, wireframes, storyboards, and prototypes.
- Organize Usability Testing for design validation and calculate SUS score.
